

How does Marlec solar iBoost+ work?

The Marlec Solar iBoost+ automatically diverts excess solar generation (normally exported to the grid) to an immersion heater saving money on water heating costs, reducing use of the boiler and increasing self-consumption of free solar energy. The Solar iBoost+ uses proportional technology so that any excess generation

Who are Marlec engineering?

Marlec Engineering are experts in off-grid and grid connected solar installations with over 30 years experience in the field. As a distributor of a range of solar panel types for many different purposes, and with an experienced in house design team we are able to realise your goals whatever your requirement.

How do I contact Marlec?

By email: [sales@marlec.co.uk](mailto:sales@marlec.co.uk) By phone: +44 (0)1536 201 588 Calling from Overseas? Skype us. Solar Power can be used to provide free energy for many applications. Marlec are experts in off-grid and grid connected solar installations.

Who is Marlec?

Marlec is the longest-standing micro wind turbine manufacturer in the world. Our pioneering journey began in 1978 with the installation of our first Rutland Windcharger, a testament to our commitment to innovation and sustainability.
