How is a 2 gallon planter packed?

2 gallon planters are often packed using a solid box, pallet, and pp bags. They are usually stacked one by one to save space on the container. Our goods are often delivered by sea, and we deliver 2 gallon pot samples by courier services such as FedEx, DHL, UPS, TNT, and Aramex.

How big should a 3 gallon plant be?

These plants are at least 3-4 years old, and can be up to 30" inches tall. These are perfect for replacing or adding to gardens, as the plants should be close to the size of the plants already in the ground. 3 gallon sized plants are also perfect for gardeners with a larger budget and less patience waiting for the plants to get to mature size.
