Should you use a solar laptop charger?

With good planning, you shouldn't rely on solar power to meet your energy needs since it's unreliable. Also, most are just power banks, providing an extra power boost if you can't charge your devices. However, solar laptop chargers give you clean, free energy you can use when far away from civilization.

How do solar laptop chargers work?

Most solar laptop chargers work like power banks. You can often plug them into wall outlets to charge them up. Then they provide extra power while you're out and about. When you add solar panels,they can be suitable for topping off those battery packs. If you have a large enough one,you can use it to charge it up completely.
