

5000mah usb portable solar panel battery charger power bank

What is a power bank solar charger?

A power bank solar charger is a device designed to charge USB-powered devices such as phones, cameras, and drones using solar energy. Some higher capacity models can even charge larger devices or provide continuous electricity for appliances and electronics.

How many watts can a power bank charge?

Details High-Speed Charging: The combination of power delivery and QC 3.0 output provide optimal charging up to 18W for your device. It is compatible with almost all USB powered devices. **Fast power Charger:** The power bank supports 5W, 7.5W, and 10W output levels, short-press the power button, then it can easily charge your devices at up to 10W.

What do you get with a 10000 mAh power bank?

What You Get: 10000mAh USB C Power Bank, USB A to USB C cable (PD Charger or Lightning cables Not Included), a hook kit, user's guide and a built-in LED flashlight. Our worry-free 18-month warranty and customer service.

Is solar charging a good option?

Friendly Reminder on Solar: Please kindly know that solar charging is an additional feature. Taken the small panel size, large capacity and uncontrollable sunlight intensity into consideration, the solar charging option works as a backup solution while other sources of power is unavailable.

Should I charge my PD power bank before a trip?

Make sure the power bank is fully charged before your trips. **Heavy-Duty Design:** We made this PD power bank to resist in all types of environments. It has a sturdy and durable design, made of top-quality ABS materials.
