

How do you charge a solar power bank?

Here are the two methods to charge your solar charger, as outlined in the solar power bank user manual. 1. Charging the Power Bank Using Electricity To charge a solar power bank using electricity, plug the power bank into a USB charger using a wall outlet. Here, you can also use a computer to charge it using a USB cord.

What is Aduro PowerUp solar power bank?

For over 10 years Aduro has been creating unique tech accessories for your everyday life. Our motto is - Protect What You Love! Aduro PowerUp Solar Power Bank 10,000mAh is a super-fast charged. The solar charger power bank is powerful enough to charge any USB device, smartphones, tablets, mp3 players, or Bluetooth earbuds.

What is the return policy for Aduro products?

We will accept returns within 30 days of the original purchase only if the product was purchased directly from Aduro Products. Credits will be issued in the form of a refund to the Credit Card used for the original purchase. Refunds are for product only, as shipping charges are non-refundable.

How does a solar power bank work?

The solar power bank will be automatically recharged when the solar panel is placed directly in the sun (NOTE: Do not expose it to extreme temperatures). The first LED indicator lights up green when the power bank is being charged by the solar panel, and glows blue during charge by the power socket.

How long does a solar power bank take to charge?

Solar power banks with more panels can charge faster as they can convert more solar energy into electricity through the photovoltaic effect. On average, a solar power bank with a capacity of 25,000mAh can be fully charged by sunlight alone within 25-50 hours.

How to charge a power bank?

For safe and efficient charging, make sure that you always use a reliable and high-quality USB 5V power source to charge your power bank. Although the power bank is said to be water-resistant, it is better to keep it away from water as it is designed to withstand splashes or light rain.
