

Advanced solar power battery pack lightsaver max

What is a LIGHTSAVER Max?

The LightSaver Max is the most powerful and portable solar solution in its class. An integrated 18,000mAh battery means you can use the Max anytime or anywhere, day or night. Your devices can charge even when the panel is closed, away from sunlight, or indoors. Use it whenever it's convenient for you!

How much battery does the LIGHTSAVER Max have?

An integrated 18,000 mAh battery means you can use the Max anytime or anywhere, day or night. Your devices can charge even when the panel is closed, away from sunlight, or indoors, so use it whenever it's convenient for you! The LightSaver Max project was developed to solve a problem.

What is a LIGHTSAVER Max solar panel?

The Max takes advantage of PowerFilm's years of expertise creating industry leading thin film solar panels. PowerFilm products are all made in the USA! The LightSaver Max uses amorphous silicon technology, which allows the panel to collect sunlight, even in shade or when partially blocked.

What makes the LIGHTSAVER Max a good solar charger?

Thin film solar helps make the LightSaver Max lighter and more portable than any other solar charger in its class. Industrial grade fabric will stand up to the elements and the incredibly durable solar panel make the LightSaver Max insanely reliable and ridiculously dependable.

What is a light Saver solar charger?

The LightSaver is an all-in-one solar solution with a roll-out thin-film solar panel and an integrated battery for storing the solar energy it captures. The LightSaver Portable Solar Charger is small enough to fit in your pocket and is powerful enough to charge your USB devices.

Is LIGHTSAVER a portable solar charger?

The LightSaver Portable Solar Charger is an ultra-light integrated solution ideal for someone needing minimal, lightweight, portable power that can fit in their pocket. The LightSaver Max Portable Solar Charger is a more sizable solution capable of powering multiple higher-draw devices simultaneously. Which LightSaver Is Right For You?
