

Why should you choose AEG solar?

The AEG solar photovoltaic modules, inverters, and energy storage systems offer you a holistic solution to make your home and workplace the control center of an intelligent and effortless energy revolution. Empowering you with sustainable energy solutions to reach your daily goals, whilst caring for the planet.

Who is AEG power solutions?

AEG Power Solutions, founded in 1981, is a solar inverter manufacturer based in Plano. On this page, you can find a complete list of solar inverters from AEG Power Solutions and compare models side-by-side. Quick facts about AEG Power Solutions solar inverters in the EnergySage Buyer's Guide: Are AEG Power Solutions solar inverters best for you?

How do AEG solar inverters work?

AEG grid-tied solar inverters convert safely the power from your solar installation into clean energy for use with your home and business appliances. With their sleek and elegant style and a wide power range, the AEG solar inverters flexibly cover the needs of modern residential installations and grid-tied commercial systems.

What are AEG solar products?

AEG products make solar an essential part of your journey towards a greener and more sustainable future. They are designed to grant you full control over your photovoltaic system and to give you peace of mind.

Are AEG inverters a good choice for your solar plant?

A new day awaits, and the first rays of sunshine illuminate your solar plant. AEG inverters are ready to capture the power, transforming it into clean energy for your home appliances - from the toaster to the coffee machine, so you can start your day full of energy too. For all planning needs, and reliable performance over time.

Are AEG solar modules safe?

AEG solar modules and production facilities are compliant with the latest standards to guarantee safety and reliability. Each module undergoes exigent quality controls before it can start its mission of delivering clean energy to your home and business. The AEG solar modules are certified to the latest IEC standards for construction and safety.
