

Does AGL offer solar products?

AGL offers a solar feed-in tariff of 5c/kWh on its non-solar plans, except in VIC where it's 5.2c/kWh. AGL sells solar batteries and solar battery and system bundles if you don't have solar yet. If you've got solar power, then you'll want to check out AGL's solar plans.

What is AGL virtual power plant (VPP)?

AGL Virtual Power Plant (VPP) allows customers with solar panels and a solar battery to save on energy bills. Currently, AGL is offering a sign-up bonus (\$100) and an ongoing bill credits scheme. To sign up, customers must have solar panels with a compatible battery, a smart meter, a reliable internet connection and live in QLD, NSW, SA or VIC.

How can AGL help you get the most out of solar?

After you're all set up with solar, AGL can help you get the most out of your solar system through special solar deals and feed-in tariffs (FiT). Feed-in tariffs are a form of rebate whereby customers are compensated a few cents for every unused kilowatt-hour (kWh) of electricity exported to the energy grid.

Does AGL offer a solar Bill credit?

If you have solar panels and a compatible solar battery, AGL will give you a \$100 signing-up credit for joining its VPP, followed by an ongoing quarterly bill credit. These quarterly credits are on top of the solar feed-in tariff you get when you supply energy back to the grid.

What is an AGL Solar System?

An AGL solar system means end-to-end support from designing and constructing a system, to grid connection, approvals, application for available incentives and even monitoring and maintenance. Our experts have you covered and supported from small bank branch rooftops to systems the size of several football fields.
