Does AGL still offer solar installation services?

AGL no longer provides installation services to residential customers, but the retailer still wants to attract households that have solar panels. Solar customers in Victoria, South East Queensland, New South Wales and South Australia can sign up to AGL's special deal called 'AGL Solar Savers'.

What is AGL virtual power plant (VPP)?

AGL Virtual Power Plant (VPP) allows customers with solar panels and a solar battery to save on energy bills. Currently, AGL is offering a sign-up bonus (\$100) and an ongoing bill credits scheme. To sign up, customers must have solar panels with a compatible battery, a smart meter, a reliable internet connection and live in QLD, NSW, SA or VIC.

Which solar battery brands are available at AGL?

Some of the listed solar battery brands available from AGL include the Tesla Powerwall and Sungrow. The retailer also offers a 'bring your own' battery deal for customers interested in joining AGL's Virtual Power Plant (VPP). You can also download the AGL Energy App which provides daily insights into your energy usage.

What is AGL & how does it work?

AGL provides electricity and natural gas to nearly four million customers nationwide. It also helps customers get started with solar and offers special deals to help households make the most out of their investment. So, if you're in the market for solar, Canstar Blue has put together this guide on AGL.

Does AGL sell solar storage batteries?

According to its website, AGL does sell solar storage batteries to residential customers, which can be purchased either alone or as part of a bundle that also includes solar panels and an inverter. Some of the listed solar battery brands available from AGL include the Tesla Powerwall and Sungrow.

The companies have a combined development pipeline of 8.1GW large-scale solar and battery energy storage system (BESS) projects. ... Managing director and CEO of AGL Energy, Damien Nicks, said the ...
