Till date, AGNI GREEN POWER has successfully commissioned more than 10MWp Solar PV Stand Alone Systems and more than 50MWp Solar PV Grid Connected/Grid-Tie systems, in India.

Who is Agni solar?

Agni Solar installed a 412 kWp rooftop solar system at our Pune factory in June 2019 with professionalism and precision. Their expert team ensured a smooth transition, addressing every query efficiently. Now, we save costs and use clean energy. Highly recommended! Agni Solar has been installing water heaters for our residential projects since 2004.

What is Agni energy?

Agni energy is the energy of the inner fires, specifically the chakra system. It is kindled through a triple fire: the electric fire from the Intuition Plane, solar fire from the higher mental plane, and fire by friction which relates to the personality life. Most of us are on the path of perfection.
