

Is Aiko solar a good solar company?

AIKO Solar has officially started delivering its latest Comet 2U 665W modules, boasting an impressive efficiency of 24.6%. This advancement further solidifies AIKO's 20-month streak as the industry leader on TaiyangNews's prestigious "Top Modules" list for highest efficiency commercial solar modules.

Will Aiko solar build a solar plant in Jinan?

Aiko Solar plans to ink a deal with the government of Jinan in Shandong province to build the plant there, the Shanghai-based company said late yesterday. With an annual production capacity of 30 gigawatts of high-efficiency solar cells and 30 GW of solar modules, the plant will be built in three phases taking five years in total.

Does Aiko solar have a higher power generation than Topcon?

This has been validated by the T&#222;V NORD test report, noted Alshrouf. In multiple pilot projects across various locations in China, AIKO Solar's ABC module demonstrated higher power generation- ranging from 4.94% to as much as 50% - under shading from obstacles, trees, or dust, compared to the standard TOPCon module.

Who is AIKO?

AIKO is a world-leading new energy technology company that focuses on R&D and manufacturing of PV core products and integrated solutions for power generation, storage, and usage. They provide customers with solar cells, ABC (All Back Contact) modules, and scenario-based solutions.

Where is Aiko solar based?

Aiko Solar, which has four production bases in Foshan and Zhuhai in Guangdong province, Yiwu, and Tianjin, is one of the world's major suppliers of solar cells and can produce 42.5 GW of high-efficiency solar cells annually, according to its website.

When did Aiko solar start developing cell technology?

Starting with the development of p-type cell technology between 2016 and 2019, the company ventured into BC cell technology in 2021, followed by the development of n-type All Back Contact (ABC) technology. With mass-scale cell efficiency reaching up to 27% in 2023, AIKO Solar developed modules with efficiencies exceeding 24%.

AIKO has officially commenced global delivery of its third-generation INFINITE modules, marking a significant milestone in bringing future solar technology into real-world ...
