

How much power does an aims power pure sine inverter produce?

The AIMS Power pure sine inverter is capable of producing 3000 wattsof clean power ideal for running your sensitive electronics. Great for use in vehicles,boats,camping and emergencies where back up power is needed.

What is a 2000 watt pure sine power inverter?

AIMS Power is proud to bring you this new 2000 Watt Pure Sine Power Inverter, designed for harsh environments, which has been completely overhauled and now boasts a dual GFCI outlet and is FCC certified. This product also includes a thermally controlled fan, allowing for increased efficiency and less noise.

What is the best pure sine wave power inverter?

For a pure sine wave power inverter,the AIMS 2000W power invertercan be the best unit. Because it comes from AIMS that provides back-up power solutions to its consumer for more than 20 years. You can use the AIMS pure sine wave power inverter to supply the cleanest power to your devices.

What is a pure sine inverter used for?

This inverter is ideal for running nonlinear loads(such as variable speed motors and small compressors). Pure sine power is also preferred for LaserJet printers,sensitive electronics,computer servers,microwaves,medical equipment,any with a circuit board and cordless drill battery chargers.

Why should you use a DSP inverter?

It will continue to put out stable,pure sine power and maintain output voltage,even as you battery bank voltage decreases. High output performanceis achieved through a DSP (Digital Signal Process) drive. This inverter is ideal for running nonlinear loads (such as variable speed motors and small compressors).
