

Why is Akon Lighting Africa a non-profit company?

Because of this, he established Akon Lighting Africa as a for-profit company, not a non-profit charity, and it's also why he created the Solektra Solar Academy so that Africans can learn about solar power to become self-sufficient and not require charitable donations.

What did Akon do for Africa?

In just one year, Akon's initiative was a smashing success by providing 14 African nations, including Guinea, Senegal, and Sierra Leone, with sustainable, solar-powered electricity via street lamps and solar panels.

What challenges did Akon face?

He personally faced the challenges of living off the grid, from limited educational and career opportunities to health and quality of life concerns. In 2014, Akon launched the "Akon Lighting Africa" project to help Africans access low-cost yet sustainable energy through solar power.

What is Akon city?

Akon City is a 10-year project to build a futuristic city in Senegal that will be entirely powered by solar power and will use its own form of cryptocurrency, AKoin. Further, Akon City will have an airport, hotels, schools, homes, and a "billion-dollar" hospital with 5,000 beds.

Can solar power bring electricity to Africa?

The project is bringing electricity to Africa by working with Chinese manufacturers of solar-powered products to provide affordable solar power to more Africans. This project is a great example of using renewable resources to create sustainable benefits. Akon's solar project aimed to bring much-needed electricity to more communities in Africa.

What will Akon's Future look like?

The city, which will feature everything from homes to hotels, schools and even an airport, will embody the principles of sustainable development and futuristic design. Akon also intends to build a \$1 billion hospital with 5,000 beds among its many amenities.
