

What is Akon Lighting Africa 'Solar Academy'?

Last Summer, the Senegalese-American singer -- in partnership with political activist Thione Niang and entrepreneur Samba Bathily -- launched Akon Lighting Africa initiative's "Solar Academy" to provide an affordable source of electricity to 600 million Africans.

Who is Akon Lighting Africa?

By 2020, Akon Lighting Africa had provided solar energy to 25 nations and about 28.8 million Africans in need. The singer has also expressed his vision of building a futuristic city in Senegal, called Akon City, powered entirely by sustainable energy.

What will power Akon City?

Akon City will be powered by renewable energy, including solar power. It is a LEED-certified project. The city will be a smart city that is eco-friendly.

Can solar power bring electricity to Africa?

The project is bringing electricity to Africa by working with Chinese manufacturers of solar-powered products to provide affordable solar power to more Africans. This project is a great example of using renewable resources to create sustainable benefits. Akon's solar project aimed to bring much-needed electricity to more communities in Africa.

What challenges did Akon face?

He personally faced the challenges of living off the grid, from limited educational and career opportunities to health and quality of life concerns. In 2014, Akon launched the "Akon Lighting Africa" project to help Africans access low-cost yet sustainable energy through solar power.

What will Akon's Future look like?

The city, which will feature everything from homes to hotels, schools and even an airport, will embody the principles of sustainable development and futuristic design. Akon also intends to build a \$1 billion hospital with 5,000 beds among its many amenities.
