

How much does Alabama Power charge for solar panels?

The Alabama Public Service Commission on Tuesday granted Alabama Power's motion to dismiss a challenge to the fees it charges residential customers who use solar panels or other methods to generate their own electricity. The PSC also approved Alabama Power's request to increase the fee from \$5 per kilowatt per month to \$5.41 per kilowatt per month.

Is Alabama's solar fee about to go up?

In fact, that solar fee, one of the highest in the nation, is about to go up. The Alabama Public Service Commission on Tuesday granted Alabama Power's motion to dismiss a challenge to the fees it charges residential customers who use solar panels or other methods to generate their own electricity.

Is Alabama Power paying less for solar power?

Solar panel stock photo. Downloaded from Advance Getty Images account in May 2024. Justin Paget | Getty Images Alabama Power is paying less for power generated by third-party energy producers and imposing a cost for those companies to connect to its electricity grid.

How much does a 5 kilowatt solar array cost in Alabama?

Currently, an Alabama Power customer a 5 kilowatt solar array, about the average size for a rooftop system, would pay the company \$27.05 in fees each month regardless of how much energy they used or how much their panels produced. The plaintiffs say that fee is punitive and meant to stifle the small-scale solar industry in Alabama.

How much does Alabama Power charge per kilowatt?

Alabama Power, in response to the challenge to the fee in 2019, petitioned the PSC to increase the amount of the fee from \$5 per kilowatt to \$5.41 per kilowatt. That request was approved last year when the PSC dismissed the challenge to the fee.

How much does electricity cost in Alabama?

In February, Alabama Power filed a document with the PSC, the state's electricity regulator, that proposed cutting the rates they pay for third-party electrical generation, known as a Contract for Purchased Energy (CPE), by up to 50%. In one category, the price decreased from about 7.33 cents per kilowatt hour to about 3.65 cents per kilowatt hour.
