

Does Aldi have a solar system?

Tempo Group has long supplied Aldi with cheap electronics, and is partnering with the German supermarket company to launch Aldi Solar: an "all-inclusive package from \$7,999*" that includes 6.08kW of Altius rooftop solar panels, a 5kW hybrid inverter and a 5.1 kWh battery -- all fully installed.

Does Aldi sell solar panels in Melbourne?

Aldi is shaking up the home solar market with a new, Melbourne-only offering. The multi-national, ultra-cheap retailer is now marketing a solar and battery package that includes 6kW of solar panels, a 5kW hybrid inverter and a 5.1kWh lithium ion phosphate (LiFePO4) battery, all for the princely sum of \$7,999 - inclusive of installation.

Does Aldi offer solar panels?

Unlike most other solar deals, the Aldi offer includes both panels and a backup battery with customers able to get access to bespoke software and professional installers, who have been specifically chosen because of their knowledge of electrical systems and are skilled in solar installations.

How many solar panels will Aldi install in Australia?

The installation will add to the more than 105,000 solar panels already fitted across 270 Aldi stores and six of the company's distribution centres in Australia. In 2022, its solar panels generated more than 40,813 MWh of renewable electricity.

Does Aldi have a solar battery?

A 6.08kW rooftop solar panel array is not large by 2025 standards, and Aldi's inclusion of a battery is even more of a reason for a larger solar panel array. SolarQuotes' resident fact checker Ronald Brakels explains: "the more solar you have the more able you are to charge your battery in winter or periods of lousy weather.

Does Aldi have 100% renewable electricity?

ALDI has achieved its commitment to power its operations with 100% renewable electricity, six months ahead of schedule. The transition results in an 85% reduction in the company's carbon dioxide (CO2) emissions.
