

What is American Solar Company, LLC?

American Solar Company, LLC is a solar company that provides you with a solar power system to save money and produce clean energy for your family at an affordable price. Our core value is people helping people. We go a step further by contributing to worthy causes.

Who is All American Solar?

Unlike most solar providers, All American Solar is family owned and operated. We treat our customers like family and provide the best solar installation in the industry. When you choose All American Solar, you are supporting a locally based, family owned and operated business.

Why should you choose All American Solar?

All American Solar does whatever it takes to provide unmatched customer service and support even after your project is complete. From solar-powered water heaters and pool heaters to complete solar power systems for your home or commercial property, we serve residential and commercial clients with a variety of money-saving solar energy solutions.

How has the Obama administration impacted solar energy?

So far, the administration has made a whirlwind of actions to boost oil and natural gas, and make cuts to incentives for clean energy resources. While the administration has injected momentum into fossil fuels and made some heavy blows to the adoption of EVs, wind power and energy efficiency, solar sits somewhere in the middle.

Is solar energy the Apple of Trump's eye?

Solar strength Solar energy appears to be neither the apple of Trump's eye, nor the target of his crackdowns. Regardless of administration, it has been growing for decades. Under Trump's first term, the industry grew 128%, according to the Solar Energy Industries Association (SEIA).

How has the solar industry changed under Trump?

Regardless of administration, it has been growing for decades. Under Trump's first term, the industry grew 128%, according to the Solar Energy Industries Association (SEIA). Solar is now the most dominant source of new electricity generation added to the grid in the United States.
