

Does Ameren Illinois offer net metering?

Ameren Illinois offers net metering to homeowners who install solar panels, but net metering credits are lower if you use the Smart Inverter rebate. Ameren Illinois customers can use the Smart Inverter rebate to lower the upfront cost of qualifying solar installations, plus the federal solar tax credit and the Illinois Shine incentive.

Does Ameren Illinois offer a solar rebate?

Ameren Illinois customers can use the Smart Inverter rebate to lower the upfront cost of qualifying solar installations, plus the federal solar tax credit and the Illinois Shine incentive. The combination of incentives, rebates, and net metering makes solar a worthwhile investment for Ameren Illinois customers.

Can solar panels lower my Ameren Illinois bill?

Ameren Illinois is one of the largest electric utility companies in the state, providing electric service to 1.2 million customers. If you're one of them, you might have considered installing solar panels to help lower your Ameren Illinois bill. Ameren Illinois customers have access to some of the best solar incentives in the country.

Does Ameren offer solar incentives?

Ameren's smart inverter incentive helps reduce the upfront cost of qualifying solar panel systems. However, if you use this incentive, you will no longer receive full-retail net metering. Instead, excess solar energy credits will be valued at a rate slightly lower than the full retail rate. Does Ameren Illinois offer solar incentives or rebates?

Do I need to install a solar battery with Ameren Illinois?

No, you don't need to install a solar battery with Ameren Illinois. However, Ameren Illinois does have a solar battery rebate equal to \$300 per kWh of battery capacity. This can substantially reduce the cost of installing a solar battery and make them a much better financial investment than in other states.

What is the Ameren solar project?

The Ameren solar project is a \$10.2 million initiative located on 17 acres of land Ameren owns next to East St. Louis Senior High School in the 4600 block of State Street. The site is expected to in part become a learning center for area students to become familiar with solar power and potential future jobs.
