

What is the American Solar Energy Society?

The American Solar Energy Society (ASES) recognizes the harmful effects of racism, sexism, ageism, and classism including, but not limited to implicit and unconscious bias, on individuals and society. ASES stands steadfastly with individuals and communities around the world who have been victims of discrimination and injustice.

What is the Solar Energy Industries Association (SEIA)?

The Solar Energy Industries Association, or SEIA in short, is the national solar trade association in the United States. Its primary aim is to build a strong solar industry in America through advocacy.

What is the International Solar Energy Society?

We share information, events and resources to cultivate community and power progress in the U.S. and beyond. As the U.S. section of the International Solar Energy Society (ISES), we work with individuals and groups around the world to accelerate the transition to a renewable energy and sustainable living society.

What is solar Powering America?

Solar Powering America aims to make it simple for communities, businesses, organizations, and state and local governments to both learn about and commit to choosing solar. Aside from that, it also serves as a central hub where organizations can make commitments and track the progress in deploying solar.

Why did government agencies create solar Powering America?

And these government agencies created Solar Powering America to coordinate their efforts to meet the goals in the President's Climate Action Plan. These goals include doubling U.S. renewable energy deployment between 2012 and 2020 and installing 100 megawatts of solar on federally-assisted housing.

Why are energy associations important?
