

What type of energy solutions does Amplus Solar provide?

Amplus Solar is Asia's leading distributed energy company providing low-carbon clean energy solutions. They offer on-site solar projects (rooftop and ground-mounted) and off-site solar farms.

Does amplus solar co-finance solar projects?

In February 2018, Amplus Solar tied up with Yes Bank for co-financing solar energy projects in the country and announced plans to develop up to 1,000 MW of solar capacity by 2023.

Why should you choose Amplus Solar?

At Amplus Solar, we put our customers first. Our value system is centered around YOU, the customer. We strive to provide innovative clean energy solutions that help businesses like yours reduce their carbon footprints and lower energy costs.

What is the core value system at Amplus Solar?

With YOU at the CORE is the value system at Amplus Solar. YOU, is the customer and as their clean energy partner, we have evolved by providing innovative clean energy solutions.

What is amplus solar doing in Bengaluru?

One of its on-site projects is a 3.9 MW ground-mounted installation at the HAL old airport, Bengaluru, which is a single-axis tracker-based solar plant. Amplus Solar has signed a 25-year PPA with HAL. It has also installed a 6.2 MWp rooftop solar plant at Yamaha, Noida, on an opex basis with net metering for captive consumption.

Does amplus solar have M&A activity?

While M&A activity has been minimal in the distributed solar segment, one significant deal in this space was the acquisition of SunEdison India's C&I rooftop projects in 2016. The purchase helped Amplus Solar expand its client portfolio to include firms such as Intel, Amway, Standard Chartered Bank, Whirlpool and Delhi Metro.
