

Does Anaheim Public utilities offer EV charging station rebates?

Anaheim Public Utilities is offering Personal Use Electric Vehicle Charging Station Rebate to residential, commercial and industrial customers who install Level 2 (240-Volt), or higher, plug-in electric vehicle (EV) chargers at their home or business.

Does California have a solar rebate program?

California's California Solar Initiative (CSI) offers a rebate program. You can receive a lump sum payment or have the amount taken off the final installed price. Rebates require paperwork to be filed. Many times, installers will handle the paperwork.

Is Anaheim going to NEM 3.0?

When properly sized, solar can be a great way to use sunlight for a portion of your energy needs, while also reducing your carbon footprint. Anaheim is not going to NEM 3.0. Please be aware our current NEM 2.0 program is a wholesale-based rate NEM program. Our rates for excess energy are shown to the left on the link.
