

What is Apex Solar?

Apex Solar is a solar installer that works with both Sunrun and Sungevity in the state of New York.

What is Apex Energy Service?

Apex Energy Service, LLC provides well-site services to national energy partners in PA, OH and WV, leading the way to a safer, cleaner, more efficient and productive energy independent future.

What products does Apex Solar offer?

Apex Solar Power offers a variety of products, including roof- and ground-mounted solar panel installation, solar powered air conditioning and heating units, thermal hot water systems, and grid-tied and off-grid battery backup systems. In addition, they have installed more than 4,000 systems, roofs, batteries, and EV chargers.

What is the certification of Apex Solar Power?

Apex Solar Power holds a certification that verifies their expertise and knowledge to meet solar energy needs. This certification also guarantees optimal installation and monitoring practices. Apex Solar Power offers customers the opportunity to integrate a solar battery and an EV (electric cars) charging station into their existing or new solar panels.

What does apex do?

Permitting is key to developing successful clean energy projects. Apex works to identify the permits required for a given jurisdiction, the studies needed to satisfy those permits, and potential vulnerabilities. These teams work to shape a policy and regulatory environment that promotes all aspects of the Apex model.

Who is Apex's Public Engagement Team?

Apex sees landowners and communities as true partners in our renewable energy projects. The Public Engagement team works to build relationships with local stakeholders to help ensure a project's success. Apex's safety performance is second to none.
