

What does Apex Solar Power offer?

Apex Solar Power offers customers the opportunity to integrate a solar battery and EV (electric cars) charging station into their existing or new solar panels. The solar company sources backup energy solar products, including the Generac PWRCell, Tesla Powerwall, and LG Chem.

What is Apex Energy Service?

Apex Energy Service, LLC provides well-site services to national energy partners in PA, OH and WV, leading the way to a safer, cleaner, more efficient and productive energy independent future.

What is the certification of Apex Solar Power?

Apex Solar Power holds a certification that verifies their expertise and knowledge to meet solar energy needs. This certification also guarantees optimal installation and monitoring practices. Apex Solar Power offers customers the opportunity to integrate a solar battery and an EV (electric cars) charging station into their existing or new solar panels.

What does apex do?

Permitting is key to developing successful clean energy projects. Apex works to identify the permits required for a given jurisdiction, the studies needed to satisfy those permits, and potential vulnerabilities. These teams work to shape a policy and regulatory environment that promotes all aspects of the Apex model.

What is apex storage?

Apex offers energy storage solutions, either as a standalone product or as part of a renewable energy system. The Apex Storage team works closely with others across the organization to realize the opportunities presented by this nascent market. Permitting is key to developing successful clean energy projects.

Who is Apex's Public Engagement Team?

Apex sees landowners and communities as true partners in our renewable energy projects. The Public Engagement team works to build relationships with local stakeholders to help ensure a project's success. Apex's safety performance is second to none.
