Apex Energy Tek is a company that specializes in the design and installation of residential and small-scale commercial solar. They have installed over 5,000 solar systems, EV charging stations, and roofing projects across the Northeast. Apex Energy offers the most comprehensive selection of renewable solar solutions in the region.

Is Apex Solar a good company?

Apex Solar did an excellent job through the entire process. I am seeing substantial savings on my electric bill and now that it is spring my system is producing more electricity than I use. Great Job! When picking who we were going to work with for our residential system. It was tough to decide. However I couldn't be happier that we chose Apex.

Can I run solar panels on my apex?

A: You can run almost anything that plugs into a wall that draws less than 1,100 Watts or 10 Amps at 110 VAC. Adding solar panels will extend your run time for these items. With the right sized solar panel system and external battery bank attached to your Apex, you could have an unrestricted run time experience.
