

What types of inverters does the Growatt app support?

The ShinePhone app supports all Growatt inverters, including grid-tie, off-grid, hybrid, and storage inverters. To use the app, you'll need a monitoring device that connects your inverter or datalogger to the internet, such as a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box.

How do I connect my Growatt inverter to WiFi?

Ensure your inverter is powered on and properly installed. Locate the WiFi module (dongle) at the back of the inverter. If your inverter doesn't have a WiFi module, you will need to purchase a compatible Growatt WiFi dongle. 2. Download the Growatt ShinePhone App Install the ShinePhone App from the App Store (iOS) or Google Play (Android).

How to monitor a Growatt inverter and datalogger?

To monitor your Growatt inverter and datalogger, you need a monitoring device that connects them to the internet. This can be a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box. Additionally, you need a smartphone running on iOS or Android to use the ShinePhone app, which is available for free on the App Store or Google Play Store.

How do I use the Growatt app?

Once your Growatt inverter is connected to WiFi, you can use the Growatt app to monitor the performance of your solar energy system. This includes monitoring the amount of energy being produced, the status of your inverter, and any alerts or notifications about any issues with your system.

How do I set up the shinephone app with my Growatt inverter?

To set up the ShinePhone app with your Growatt inverter, follow these steps: Download and install the ShinePhone app on your smartphone from the Apple App Store or Google Play Store. Register an account on the app by entering your email address and password.
