

How does the Arcadia Power Community Solar Program work?

Each customer purchases or rents a portion of the solar array sufficient to meet their monthly or annual electric demand. The Arcadia Power community solar program guarantees a reduced energy bill, requires no long-term commitment, and integrates with utility billing systems so you only pay a single bill per month.

Where is Arcadia Power Solar available?

Currently, the Arcadia Power community solar program is available to customers in New York, Maryland, Massachusetts, Colorado, California, Georgia, New Hampshire, New Jersey, and the District of Columbia. Don't live in these regions?

Does Arcadia offer community solar?

The clearest benefit of Arcadia's community solar program for residential customers interested in solar is the ability to cancel at any time. You no longer need to sign a 20-year contract, risk a termination fee, or be obligated to transfer the commitment to the next tenant in a rented apartment.

Who is Arcadia Solar?

Arcadia Solar is a company that installs solar systems in Arizona, California, Nevada, and Texas. Founded in 2009, its team includes licensed contractors and electricians who stand by the quality of their workmanship. Arcadia Solar streamlines the solar installation process by providing all services from initial consultation to post-installation.

Does Arcadia Power integrate with utility billing systems?

Beyond this primary benefit, Arcadia Power's ability to integrate with utility billing systems provides an innovative method to ease other possible pitfalls of community solar programs. First, it allows Arcadia to send you a single bill each month.

Why should you choose Arcadia Power?

Second, it provides Arcadia with the information about your usage necessary to appropriately size your allocation from a solar array, removing any need for your own calculations. And, finally, it allows Arcadia Power to offer a guaranteed bill reduction every month - in New York, it's a 5 percent discount on your electric bill.
