

How does the Arcadia Power Community Solar Program work?

Each customer purchases or rents a portion of the solar array sufficient to meet their monthly or annual electric demand. The Arcadia Power community solar program guarantees a reduced energy bill, requires no long-term commitment, and integrates with utility billing systems so you only pay a single bill per month.

Where is Arcadia Power Solar available?

Currently, the Arcadia Power community solar program is available to customers in New York, Maryland, Massachusetts, Colorado, California, Georgia, New Hampshire, New Jersey, and the District of Columbia. Don't live in these regions?

Is Arcadia a good solar service?

Arcadia offers a good solar service with its community solar program. Members can enjoy guaranteed savings of up to 10% off their utility bill, making it a cheap way to reduce their carbon footprint and help lower CO2 emissions. However, like any other service, it has its pros and cons.

Who is Arcadia?

Arcadia was founded in 2014 on the belief that everyone deserves access to clean energy. Our initial investment in community solar drove progress toward that vision.

Does Arcadia Power integrate with utility billing systems?

Beyond this primary benefit, Arcadia Power's ability to integrate with utility billing systems provides an innovative method to ease other possible pitfalls of community solar programs. First, it allows Arcadia to send you a single bill each month.

Why should you choose Arcadia Power?

Second, it provides Arcadia with the information about your usage necessary to appropriately size your allocation from a solar array, removing any need for your own calculations. And, finally, it allows Arcadia Power to offer a guaranteed bill reduction every month - in New York, it's a 5 percent discount on your electric bill.
