

Is Arcadia a solar power company?

Arcadia (formerly Arcadia Power) is not a power company or energy supplier, as it doesn't generate or sell electricity. Instead, Arcadia connects you to local solar farms and applies credits from those farms to lower your utility bill. Arcadia assigns you a share of a nearby solar farm's output when you sign up.

What is Arcadia Power's new community solar program?

Arcadia Power's new community solar program seeks to remove a few key historical barriers to entry for residential customers interested in community solar programs. To ensure residential customers will buy solar power from these developments for years to come, community solar programs typically offer long-term (20-year) contracts.

Who is Arcadia Power?

Arcadia Power is one of the largest community solar companies in the US. They aim to help Americans who can't install solar panels directly on their homes to benefit from renewable energy through community solar projects.

Does Arcadia Power pay for solar panels?

Arcadia Power does not pay for solar panels. Instead, it offers community solar subscriptions. Participating utilities buy solar energy from Arcadia, which sells subscriptions to consumers and buys energy from solar farms. In some states, consumers pay Arcadia, which then pays the utility and the farm on their behalf.

Does Arcadia offer community solar subscriptions?

Arcadia offers subscriptions to local solar farms in partnership with certain utilities. This company connects you with solar farms so you can buy clean electricity -- if community solar is available where you live.

How does Arcadia pay a solar farm?

For example, if the solar credits applied to your bill are worth \$100, Arcadia might pay the solar farm \$85 and charge you \$90, keeping the \$5 difference as revenue. This spread is made possible by government incentives, economies of scale from managing multiple solar projects, and arrangements with utility providers.
