

Does Arcadia offer community solar?

Arcadia's primary offering for consumers is participation in its community solar program. This is a simple way for anyone with a utility bill to save money and support renewable energy and a more resilient grid. So, what is community solar?

Does Arcadia Power pay for solar panels?

Arcadia Power does not pay for solar panels. Instead, it offers community solar subscriptions. Participating utilities buy solar energy from Arcadia, which sells subscriptions to consumers and buys energy from solar farms. In some states, consumers pay Arcadia, which then pays the utility and the farm on their behalf.

Who is Arcadia Power?

Arcadia Power is one of the largest community solar companies in the US. They aim to help Americans who can't install solar panels directly on their homes to benefit from renewable energy through community solar projects.

Are low-income people eligible for Arcadia solar?

Arcadia Power's community solar program offers benefits to a wide range of customers. In some states, low-income individuals may qualify for even better rates. The most tangible benefit for most Arcadia subscribers comes in the form of guaranteed savings on their utility costs without having to sacrifice a stable energy source or set up an expensive solar system on a residence. It's also a way to support more renewable energy.

How much do Arcadia solar credits cost?

You pay Arcadia for these credits at a lower price, typically saving 5-10%. For example, if the credits are worth \$100, you might pay Arcadia \$90 and keep \$10 as savings. It typically takes a few months to connect you to a solar project and see savings on your bill. The billing process varies by state and utility provider: Single bill.

What is the main benefit of Arcadia solar?

The most tangible benefit for most Arcadia subscribers comes in the form of guaranteed savings on their utility costs without having to sacrifice a stable energy source or set up an expensive solar system on a residence. It's also a way to support more renewable energy. In some states, low-income individuals may qualify for even better rates.
