

Does Arcadia offer a solar savings program?

We have several savings programs available to our customers. Eligibility is dependent on various factors for these programs. Customers with select utilities are subscribed to a Community Solar project with no upfront cost and each Arcadia member receives a percentage of the solar savings that are generated by their subscription to a solar farm.

Will Arcadia expand its community solar program?

Soon, Arcadia plans to continue expanding its community solar programs as states move more and more towards favorable community solar legislation. Arcadia Power's new community solar program seeks to remove a few key historical barriers to entry for residential customers interested in community solar programs.

Should I join Arcadia solar?

If you live in one of the states where community solar is offered, joining Arcadia can be a good way to support clean energy while saving a little money each month. However, it's worth shopping around to see if other community solar providers in your area might offer better savings.

How much does Arcadia solar cost?

Instead of paying the full \$37.89, you might pay \$34.10 to Arcadia, saving \$3.79 (a 10% discount). After the credits are applied, you'll still owe your utility provider for the rest of your energy usage. This means you'll pay your utility company for any charges not covered by the solar credits.

How do Arcadia Power's solar credits work?

Arcadia Power estimates your community solar savings and applies credits to your bills based on that estimate before your project is completed. All Arcadia members receive wind RECs (Renewable Energy Credits) to cover 50 percent of their electricity usage at no additional cost. A REC represents the environmental benefit of renewable energy.

How do I add community solar to my Arcadia account?

To add community solar to your Arcadia Power account, you must first have online account credentials with your utility and enter those credentials into Arcadia's website. You will also need to sign up for automatic bill-pay. Once you have completed these steps, Arcadia's statements will replace your utility's bills.

Your portion of the solar savings will be applied to your local utility bill and you will see a reduction in your overall utility charges. When your Arcadia statement is calculated, no less than 5%* of those solar savings are credited to your overall ...

Instead, we do it through community solar. In community solar, you get credit for producing solar power when the solar panels are in a local solar farm rather than on your property. It makes solar power simpler and ...
