

Do I need to charge my arizer Solo II Max?

Fully charge your Arizer Solo II MAX before first use. Arizer Solo II MAX Batteries and Chargers are manufactured to strict quality standards, specifically for use with the Solo II MAX. Only use official Solo II MAX Batteries & Chargers. Do not use any third-party, counterfeit, or unknown brand batteries or chargers.

How do you turn on the Arizer Solo 2?

To turn on the Arizer Solo 2, hold down the middle and top button simultaneously. The device will then heat up to the default temperature of 428°F (220°C) and run for 10 minutes.

How do I store my arizer Solo II Max battery?

Do not tamper with or misuse the Arizer Solo II MAX Battery, and do not use damaged/defective batteries or Solo II MAX devices. Arizer Solo II MAX should be stored in a safe, temperature controlled, cool, dry place. Do not store in extreme temperature environments. Extreme heat or cold can damage the device and/or battery.

What is the power-on delay on the Solo II Max?

Power-On Delay - This safety feature has four settings: 2 Seconds, 4 Seconds, 6 Seconds, and 8 Seconds. The default setting is 4 seconds. Connect to your water pipe or bubbler using the included Frosted Glass Aroma Tube. When the Solo II MAX is rotated 180°; the display and controls will invert.

How do I use the Solo II Max if my battery is low?

Use While Charging - If your battery is running low with the Solo II MAX, you don't have to wait for the battery to fully charge before you can use it. Just partially charge the battery (5-10 minutes) and then you can set the temperature and use the Solo II MAX while the battery continues charging.

Will Solo II work if the battery is drained?

Solo II will not operate if the battery is completely drained. The Solo II and Solo II Chargers have built-in protections to prevent the battery from being overcharged or drained too low. To conserve battery life, use the Solo II in a temperature-controlled environment and use lower temperature settings. When outdoors,
