

Does Arizona have a solar tax credit?

Arizona's state tax credit equals 25% of solar power system costs, up to \$1,000. Most solar installations will earn the maximum \$1,000 incentive. The Arizona solar tax credit will lower your state income tax liability. Much like the federal tax credit, you won't get these savings until you file your return for the year. Quick Facts

Are there solar rebates in Arizona?

There are no statewide Arizona solar rebates, but it does have the AZ solar tax credit. Arizona's tax credit is equal to 25% of system costs up to \$1,000, and it reduces your state income tax liability. There may be local energy efficiency rebates and financial incentive programs available to you.

How do solar incentives work in Arizona?

Arizonans can take advantage of the statewide tax credit, tax exemptions and local rebate programs on top of the 30% federal solar tax credit to dramatically reduce their total system cost. We've extensively researched all of the solar incentives in Arizona so you can understand how each one works and get the best deal on your solar system.

Are solar panels tax deductible in Arizona?

Arizona homeowners also qualify for the federal solar investment tax credit, also known as the ITC. This provides a deduction equal to 30% of your solar panel installation costs on your federal taxes. If you are a homeowner, condo owner or cooperative housing corporation member and you own your solar panel system, you are eligible for this credit.

How much can you save on solar panels in Arizona?

Solar panel systems in Arizona are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

How much do solar panels cost in Arizona?

The average cost of solar panels in Arizona is about \$21,000 before incentives, based on the average 7 kW installation. This is equal to about \$3.00 per watt of solar installed. Once the federal and state solar tax credits are applied, the price drops to about \$13,700 to install a solar photovoltaic system in Arizona.
