

How do I charge my arkpak battery?

Solar panels convert the sun's free energy into DC electricity, which in turn charges your battery via a solar charge controller. Set up your solar panel in the sun (ideally at a 30 degree angle) and connect it to your ArkPak, via the external terminals, making sure you go through a solar charge controller to protect your battery from overcharging.

How do I recharge my arkpak?

You can recharge your ArkPak using all main types of solar panel (fixed & folding) simply by plugging the solar panel into either the Anderson Plug, or attaching it to the ArkPak's external high current terminals. The bigger the solar panel, the higher the rate of charge your ArkPak will receive (up to 6 amps, dependent upon weather conditions).

How much power can I store in my arkpak?

You can store up to 130 amp hours of power in your ArkPak with the largest size battery in it. That's the equivalent of around 1,560 watt hours - more than any other device of its kind in the USA - in a convenient, compact & portable case.

Is the arkpak 730 battery included?

The revamped ArkPak 730 is the definitive portable power pack when getting away from it all and staying powered. **BATTERY NOT INCLUDED** You have the freedom to select your own battery type based on your particular individual needs. The ArkPak 730 Portable Power is an enhanced portable power station that you can use to power more devices.

How does the arkpak 730 work?

This clever portable power source charges at 7 amps for AC and DC, enabling the ArkPak 730 to power more devices than previously. Place a 12V battery of your choice inside, and the ArkPak becomes a 12V battery charger, a Portable Power Station, a Battery Management System and a Dual-Battery System all rolled into one.

Does arkpak ap-730 provide 12V and 240V power?

The ArkPak AP-730 provides 12V and 240V power, can be used as a 12V battery charger, battery management system, and a dual-battery system all in one. ArkPak 730 features 7 stage AC & DC smart charger to maintain battery condition - 240V and 12V Portable Power - anytime, anywhere.
