According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Atlanta, GA are IntegrateSun, LLC, Custom Solar Solutions, Solar Energy Partners, Firefly Solar & Roofing, and Bulldog Electrical Contractors, Inc. How many solar companies are in Atlanta, GA?

How much does solar cost in Atlanta GA?

As of October 2024, the average solar panel cost in Atlanta, GA is \$2.71/W. If you install a 5 kW system it will cost you between \$11,529 to \$15,597, with an average cost of \$13,563. What incentives are available for solar in Atlanta, GA?

How much does a 5 kW solar system cost in Atlanta?

While a 5 kW system will only cost you \$13,563 in Atlanta, GA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Atlanta, GA?

Why is Atlanta a good city for solar energy?

The city streamlined solar permitting processes and efforts to make solar energy more accessible to residents and businesses. By adopting user-friendly systems and offering incentives, Atlanta serves as a model for other cities in the state, contributing to Georgia's renewable energy goals.

Are solar panels worth it in Atlanta?

Solar panels are worth it in most areas, including Atlanta, GA. Certain factors, including the cost of electricity, incentives, climate, and the angle at which the sun hits your roof impact how quickly you break even on your investment relative to other areas around the U.S.

Why should you switch to solar energy in Atlanta?

One of the most compelling reasons to tap into solar energy is to minimize your dependence on nonrenewable energy sources like burning fossil fuels, which are harmful for the environment. Many homeowners might be wondering how much exactly they can impact the environment by switching to solar in Atlanta.
