

Who is Azur space solar power?

AZUR SPACE Solar Power is the European leader and a global player in development and production of multi-junction solar cells for space PV and terrestrial CPV applications. Based on more than 50 years of experience in space solar cell technology, AZUR SPACE brings back from space its latest photovoltaic technology for terrestrial applications.

What is Azur space?

Based on more than 50 years of experience in space solar cell technology, AZUR SPACE brings back from space its latest photovoltaic technology for terrestrial applications. Our state-of-the-art solar cells offer high efficiencies, small temperature coefficients and excellent power-to-mass ratio.

Where is Azur space made?

The production facility of AZUR SPACE includes epitaxy, cell technology, assembly and testing divisions with an operation capability of 24 hours on seven days a week. AZUR SPACE Solar Power GmbH has about 250 employees. The company is located in Heilbronn, Germany and headed by Roland Dubois. AZUR SPACE is part of the 5N Plus group.

Why should you choose Azur space solar cells?

All solar cells include the latest triple and quadruple junction technology, where III-V layers are grown on a Germanium substrate and the whole product range benefits from many years' experience on the space market. AZUR SPACE has already delivered over 1.5 million triple-junction GaAs solar cells to a wide range of customers.

How many employees does Azur space have?

AZUR SPACE Solar Power GmbH has about 250 employees. The company is located in Heilbronn, Germany and headed by Roland Dubois. AZUR SPACE is part of the 5N Plus group. The roots are closely linked to more than 100 years of industrial history of AEG-Telefunken.

How many solar cells Azur space has delivered?

AZUR SPACE has already delivered over 1.5 million triple-junction GaAs solar cells to a wide range of customers. In addition to our standard solar cells, AZUR SPACE offers various possibilities of customized products on individual requirements.

Mitarbeitende von AZUR SPACE Solar Power GmbH bei XING. Wenn kennst Du schon - und seid Ihr schon vernetzt? Wenn nicht, lernt Euch kennen und tauscht Euch zu gemeinsamen Themen aus.

AZUR SPACE solar cell assemblies Download; Space Assemblies are space solutions with a higher integration level. Based on our high-efficiency solar cells of the 30% or ...

AZUR SPACE Solar Power GmbH Rechtsform: GmbH: Gründung: 1964 Sitz: Heilbronn, Deutschland: Leitung: Richard Perron Dirk Stolzenburg [1] Mitarbeiterzahl: 227 ...

A leading global manufacturer of specialty semiconductors and high performance materials announced that it has entered into an M& A-agreement (pending authorization) with ...

Download; Based upon our experience in designing high efficiency III-V multi-junction solar cells, AZUR SPACE developed a range of optoelectronic receiver products with ...

Our mission is connectivity and secure communications for planet Earth and beyond.. We join engineers, entrepreneurs and investors to forge strong links between institutions, industries, ...

Cell Manufacturing. Cell Manufacturing facilities of AZUR SPACE are placed in a modern clean room fab with a production area of 4 500 m²;. Due to specific structure and ...

Space Solar Cells offer high efficiencies, starting from the 28% class and ending in the high-end cell class of 32%. All solar cells include the latest triple and quadruple junction ...

AZUR SPACE also provides solar cell assemblies as OEM products for various CPV technology platforms. EFA (Enhanced Fresnel Assembly) is a single CPV cell assembly on a ...

Forschung und Entwicklung, Ingenieurleistungen, Produktion und Vertrieb auf dem Gebiet der Halbleiterbauelemente und der solarelektrischen Versorgung in der Luft- und Raumfahrt. ...

Azur Space Solar Power GmbH-? (63,300)

"AZUR'S 3G30-Advanced Space Solar Cell and Next Generation Product with 35% Efficiency" 27th European Photovoltaic Solar Energy Conference and Exhibition, 24-28 ...

2 Jan 2013 as Azurspace Solar Power GmbH Patent: Light converter 17 Dec 2012 Annual report for the year ending 31/12/2011 · Balance sheet for 31/12/2011 · Earnings ...

AZUR SPACE unprocessed epitaxial wafer Download; SPACE Wafers contain triple junction InGaP/GaAs/Ge epi-layer structures with efficiencies of up to 30% available in large ...

Electron (left panels) and proton (right panels) relative damage coefficients for 90% of the remaining Voc, 90% of the remaining Isc, and 80% of the remaining power. Import data By clicking on the "Load data" button below ...

Ultrathin (5 µm) GaAs solar cell reached 20 % efficiency at AM0. 2001 First European triple-junction (TJ) GaAs space solar cell with 25 % efficiency at AM0. 2004 First ...

Azur Space ist ein international tätiges Unternehmen aus der Photovoltaikbranche mit Sitz in Heilbronn, das Triplesolarzellen und Baugruppen in Galliumarsenid-Technologie für die Raumfahrt und für terrestrische Konzentratorsysteme entwickelt und produziert. Das Unternehmen ist nach eigenen Angaben im Marktsegment Solarzellen für Telekommunikationsanwendungen Weltmarktführer. Neben Solarzellen für die Raumfahrt stellt ...

Azur Space Solar Power GmbH Theresienstraße 2, 74072, Heilbronn Click to show company phone <https://> Germany : Panels; Materials; Business Details Thin-Film ...

There are two types of bypass diodes available. An external Si diode as well as a GaAs diode, which is monolithically integrated in the solar cell structure. As all of our space ...

AZUR SPACE Solar Power General Information Description. Manufacturer of photovoltaic cells based in Heilbronn, Germany. The company specializes in the production and distribution of solar cells and modules in ...
