

What features make BABY-G watches suitable for active women?

The BABY-G watches are perfect for active women and for staying on-time in day-to-day living and for use in sports. They are fully equipped with various functions like solar chargers, shock resistance, and water resistance.

What is BABY-G?

BABY-G is a line of products designed for active women. This rich lineup is perfect for staying on-time in day-to-day living and for use in sports. It is fully equipped with various functions like solar chargers, time adjustment via radio waves, shock resistance, and water resistance.

How does Baby-G Tough Solar work?

The BABY-G Tough Solar technology works by utilising small solar panels on the watch face to convert light into energy, which is then stored in a rechargeable battery, powering your watch for several months on a single charge, even if it's not exposed to light for a period of time. Extend the good times with extended battery life.

How long does a solar-powered watch last?

This solar-powered watch for women has a traditional style that includes a full analog display with three hands, a screw lock crown, and a date display for the day of the month. Other features include shock resistance, 100-meter water resistance, mineral glass, and low battery alert. The watch can run for about 5 months on a full charge.

Why should you buy a Baby-G Watch?

Every BABY-G is built for at least 100-meter water resistance so you can trust your watch to keep ticking whether you're swimming, snorkelling or just want a watch that can handle everyday water exposure. Let this eco-friendly and convenient feature eliminate the need for frequent battery replacements.

What is a Baby-G G-MS MSG-S500?

The Baby-G G-MS MSG-S500 series is a February 2020 release for Japan and Asia. This solar-powered watch for women has a traditional style that includes a full analog display with three hands, a screw lock crown, and a date display for the day of the month.
