

How does Baby-G Tough Solar work?

The BABY-G Tough Solar technology works by utilising small solar panels on the watch face to convert light into energy, which is then stored in a rechargeable battery, powering your watch for several months on a single charge, even if it's not exposed to light for a period of time. Extend the good times with extended battery life.

What is Casio BABY-G?

Casio's BABY-G is a female timepiece brand created in 1994 as a counterpart to its 'big brother' G-SHOCK. The brand offers watches that are stylish, bold, tough, and chic, combining fashion and function for active women.

What functions do Casio Baby-G watches have?

BABY-G timepieces are equipped with multiple daily alarms and stopwatch functions. They are also shock and water resistant, just like G-SHOCK watches. Introducing to you an absolutely unique overview of all Casio Baby-G series that are on active sale now in 2020 [don't worry, the material is being updated]

What is included in Baby-G collection?

The Baby-G collection includes features like Dual Dial Time, Stopwatch with Lap Memory, Super Illuminator, and 100-meter water resistance.

What features do Baby-G watches have?

BABY-G timepieces are shock and water resistant with multiple daily alarms and stopwatch functions. The brand exemplifies the meeting of fashion and function for the vibrant, active woman with watches that are stylish, bold, tough and chic.

Why should you buy Baby-G watches?

Baby-G watches are designed for the vibrant, active woman. They combine fashion and function, offering stylish, bold, and tough timepieces. Like G-SHOCK, they are known for their shock and water resistance, along with multiple daily alarms and stopwatch functions.
