

Launched by Contemporary Amperex Technology Co Ltd (CATL), the battery has a 15-year lifespan. The company also claims that the battery has a life of 932,000 miles (1.5 million kilometers)....

Contemporary Amperex Technology Co., Ltd. (CATL) successfully held its first online launch event "Tech Zone" on July 29. Dr. Robin Zeng, chairman of CATL, unveiled the company's first-generation sodium-ion ...

Building on unified battery standards, the two parties will strengthen the sharing of their battery swapping networks, and accelerate the adoption and advancement of battery ...

As for the new sodium-ion battery, CATL was one of the first manufacturers to present its own SIB in mid-2021. The first generation had an energy density of 160 Wh/kg, but CATL was already aiming for 200 Wh/kg at ...

On December 18, 2024, CATL unveiled two standardized battery models, #20 and #25, at the Choco-Swap ecosystem conference held in the coastal city of Xiamen. Jointly launched by CATL in collaboration with nearly 100 partners, ...

o Plant will enable CATL to better meet customers' need for advanced battery technology and support global climate ambitions Stellantis and CATL today announced they ...

CATL has announced the launch of their second-generation Sodium-ion Battery at the World Young Scientists Summit.. Introduction to CATL's Sodium-ion Battery. The focus keyphrase here is the second ...

CATL is not the only battery manufacturer developing sodium-ion batteries. In January, its rival BYD, the second-largest battery manufacturer in the world started ...

CATL's traction batteries are suitable for light trucks, mini buses, and minivans, and are widely used in express delivery, supermarket delivery, fresh food delivery and other ...

At Auto China 2024, CATL unveiled Shenxing PLUS--the world's first LFP battery that achieves a range above 1,000 kilometers with 4C superfast charging. Within eight months after the launch of the Shenxing superfast ...

CATL doesn't just make batteries, but it also recycles 90% of lithium and nearly 100% of other raw materials like cobalt and manganese. The battery company has a gigafactory in Germany to help BMW and VW build ...

CATL, or Contemporary Amperex Technology Co. Limited, is a Chinese battery manufacturer and technology

company that specializes in the production of lithium-ion batteries for electric vehicles and energy storage ...

CATL has an ultra-long service life traction battery system solution that perfectly satisfies the needs of operating vehicles which are frequently used, and enables them to ...

Starting from the electrolyte, one of the four major components in batteries, CATL has developed a number of functional additives that can modify the electrolyte "genes," reduce the heat generated from reactions between ...

China's Contemporary Amperex Technology Co., Limited (CATL), a global leader in lithium-ion battery development and manufacturing, is significantly escalating its investment in...

Supported by its subsidiary Brunp, CATL is working with customers to create a closed loop of battery production - application - cascade utilization - battery recycling. At the same time, CATL is in talk with local partners in ...

The CATL Tectrans long range version achieves a full-chassis layout with 1,000 kWh of battery capacity for the first time, providing an ultra-long range of 800 kilometers. This breaks the long-distance limitations for electric ...

In 2022, CATL introduced its third-generation CTP technology, known as the Qilin Battery, which delivers 13% more power than comparable batteries like Tesla's 4680 battery. ...

Sinopec boasts a nationwide network of energy stations and strong energy service capabilities, while CATL is a leader in battery technology and the development of battery swap ...

The United States' Inflation Reduction Act is pushing U.S. automakers to move away from CATL batteries. In 2024, drivers purchasing new EVs cannot take advantage of the \$7,500 tax credit if the EV has batteries ...
