

How do I install a Sungrow 3 phase hybrid inverter?

Sungrow have released their new 3-Phase Hybrid range of inverters, alongside the new SBH series batteries. Please follow the install guidelines in the Owner's manual and Data sheet. Securely fix the mounting bracket to the wall, and insert the bottom bracket to avoid the inverter tilting. Mount the inverter and lock in place with security screws.

Is there a manual for Sungrow Power Inverter?

The contents of the manual will be periodically updated or revised due to product development. There may be changes in the manual due to subsequent inverter editions. The latest manual can be acquired via visiting the website at

How many batteries can be paralleled in Sungrow SH**RS series?

In the Sungrow SH**RS series,two stacksof batteries can be paralleled together. The maximum number of modules in series is 6. If installing two stacks,it is best to install one stack only at first,then update all firmware on Dongle,inverter and battery,then connect the other battery. Switch both batteries off at the MCB.

How do I connect a Sungrow inverter?

There are no normal loads connected (i.e. Whole Home Backup). And/or there is another Sungrow inverter connected. There are normal loads connected. Connect suitable RS485 cable between A and B on the meter, to A2/B2 in the COM port plug. The terminals are clearly marked "METER A2 B2".
