

Does BC Hydro offer solar rebates?

On June 27, the Government of B.C. announced that BC HYDRO is introducing new rebates for customers looking to install solar panels and battery energy storage systems. To be eligible for rebates, installations and connections must meet all eligibility requirements.

What are BC solar rebates?

With the ability to access BC solar rebates and save up to \$10,000 on solar panel and battery storage installations, this is the perfect time to take advantage of clean, renewable energy. Whether you're located in the Lower Mainland or the Interior, these rebates are making it easier for residents throughout BC to transition to solar energy.

How much does a solar rebate cost?

The residential solar rebate offers a rebate maximum of \$5,000, with \$1,000 per kilowatt of generator capacity. This rebate is capped at 50 percent of your total solar photovoltaic (PV) panel system installation costs. Battery storage rebates for up to \$5,000 are available for homeowners, with \$500 per kWh of battery power storage capacity.

When will BC Hydro review my rebate application?

BC Hydro will review your rebate application once your eligible solar panels and battery system are completely installed and you've paid your final installation invoice to an eligible contracting company. You must also supply BC Hydro with project documentation, which they'll validate before paying out your rebate.

Who is eligible for the BC Hydro credit?

Who's Eligible for The BC Hydro Credit? To qualify for the BC Hydro credit for solar panel and battery storage installation, you must be a BC Hydro customer who has submitted a self-generation application on or after May 1, 2024. Your solar panel system must be installed after June 27, 2024, to be eligible for the solar panel rebate.

What is a commercial solar rebate?

The commercial solar rebate is available to eligible businesses. Your company can access up to \$25,000 for solar panel installation at \$1,000 per kilowatt of generator capacity. This rebate is capped at 50 percent of your total product installation cost and includes labour and materials.
