

How do I become a solar technician?

To become a solar technician, individuals typically need: Many technicians pursue degrees or certifications to enhance their expertise in solar energy systems and installation techniques. Obtaining degrees and certifications is essential for solar technicians seeking to demonstrate expertise, particularly in specialized roles.

Can you become a solar energy technician without a college degree?

By becoming solar energy technicians, workers can enter a growing industry without a college degree. According to the Solar Energy Industries Association (SEIA), over 231,000 people worked in solar energy in 2020. As sunlight becomes an increasingly popular energy to harness, jobs in solar energy will only increase.

Do solar energy technicians need to be electricians?

No. Solar energy technicians do not need to be electricians, but they do need a basic understanding of electrical systems since they must install and maintain solar systems. The job requires connecting the solar panels to the electrical grid, which is often done under the guidance of a senior solar energy technician.

Do you need a license to become a solar energy technician?

Employers do not always require applicants to possess a license to become solar energy technicians, but they often seek candidates with on-the-job training. However, states may require a license through the North American Board of Certified Energy Practitioners.

How much does a solar energy technician make?

Much like other professions, with experience, solar energy technicians can increase their wages. The bottom 10% of solar energy technicians earned less than \$32,590 in 2020, while the top 10% made more than \$64,600. Is solar energy technician a good career?

What certifications are available for solar technicians?

There are several organizations that offer certification for solar technicians, such as the North American Board of Certified Energy Practitioners (NABCEP), the Electronics Technicians Association (ETA), and the Solar Energy International (SEI).
