

What is the best portable solar generator?

After testing several models, we found that the Jackery Solar Generator 2000 Pro is the best portable solar generator. It consists of the Jackery Explorer 2000 Pro power station and the Jackery Solar Saga 200 portable solar panels.

What is the best large solar generator?

The AC200P was in a dead heat for the best large (and best overall) solar generator. It tops CNET's best list for portable power stations. Check out our list of best portable solar panels and solar batteries.

What are the best portable solar panels?

Our top pick for portable solar panels is the Jackery Solar Saga 200. Combined with the Jackery Explorer 2000 Pro power station, this setup is lighter and charges faster than competitors with similar battery sizes.

What is the best solar generator for various energy needs?

The best solar generators can reliably and sustainably meet various energy needs. We have tested and compared the best models to find which one fits your needs. We chose the Jackery Explorer 2000 Plus as our best overall pick, but there are tons of options out there on the market to meet your needs.

Do you need a portable solar generator?

Do you need a portable solar generator to power small appliances like a mini fridge, water purifier, blender, or small power tools? If so, you'll need one with enough output and capacity to last a decent amount of time.

How to choose the best solar generator?

To choose the best solar generator, look for one that can simultaneously charge all your intended devices. A good portable power station should have a high output capacity to charge multiple devices, even those with high power requirements. Additionally, the generator's maximum output should be much higher than its max input.
