

## Best power company for the solar buy back

Which company is the top recommendation for solar buyback?

If you want to sell excess power back to the grid at the market price (wholesale price), then Champion Energy is our top recommendation for solar buyback. All of their electricity plans are eligible for solar buyback.

Why are solar buyback plans so popular?

Solar buyback plans are popular because they are cost-effective and energy efficient. So, opting for one will help generate clean energy and allow you to get credit for the excess energy produced. Different companies are providing these plans to their customers with interesting offers.

What is solar buyback?

Solar buyback makes investment in solar energy more attractive for homeowners and businesses. It refers to a program that allows solar panel owners to sell the excess electricity they generate back to the electric grid. Buyback programs are made possible through net metering and energy credits (below).

Did Pulse Power offer a solar buyback plan?

Pulse Power used to offer the most popular solar buyback plan around. They had a "bundled" energy rate of power and delivery, and they purchased solar power back at the same rate, including delivery.

Is a solar buyback program necessary?

If you have a solar system installed in your household and produce excess energy during the daytime, solar buyback programs and plans can allow you to send that excess energy back and earn bill credits or cash.

Can a net exporter buy back solar power?

You cannot be a net exporter, meaning you cannot sell more power than the amount you use. However, if you want to sell excess power back to the grid at the market price, then Champion Energy is our top recommendation for solar buyback. All of their electricity plans are eligible for solar buyback.

These days, the opposite is true: in order to maximise investment in a solar system, the system's owner would see the most benefit from endeavouring to consume as much of the electricity that they generate as ...
