

What are the best Cheap solar panels?

Based on our latest Intel Report, we've compiled a list of the best cheap solar panels that are as reputable as they are affordable. AXITEC, Jinko Solar, LONGi Solar, REC Group, and QCELLS are our top picks for the best cheap solar panels based on their price per watt (\$/W) and performance.

What is the cost of a solar panel?

The cost of a solar panel varies depending on its efficiency. Less efficient polycrystalline panels typically cost \$0.75 per watt, making a 400-watt panel around \$300. The cost also depends on the purchasing method. Buying through a full-service installer usually results in a lower price per panel compared to purchasing individually from a retail store.

Is a cheap solar panel worth it?

A cheap solar panel isn't worth anything if it breaks without a warranty to replace it. The cost of a solar panel is set by the manufacturer and involves a variety of factors, from cost of production to expected lifetime. Let's break down the factors that go into solar panel costs.

Which solar panels are the most expensive?

REC Group produces efficient, high-performance solar panels comparable to premium brands like SunPower and Maxeon--but about 19% cheaper. QCELLS solar panels are the most expensive on our list but still among the least expensive and most popular solar panels quoted on EnergySage.

Are solar panels affordable?

Solar panel affordability continues to increase thanks to falling prices, incentives, rebates, and flexible financing options. The solar panel with the cheapest price tag may not be the most cost-effective option in the long term. Consider efficiency, performance, and warranties when comparing your options.

What is the cost of a 400 watt solar panel?

Today's premium monocrystalline solar panels typically cost between \$1 and \$1.50 per Watt, putting the price of a single 400-watt solar panel between \$400 and \$600, depending on how you buy it. Less efficient polycrystalline panels are typically cheaper at \$0.75 per watt, putting the price of a 400-watt panel at \$300.
