

Which solar panel brands offer the best warranties?

You'll also want to choose panels from a company that backs its panels (and ideally your entire system) with a strong warranty. SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels and strong warranties.

What is a solar panel warranty?

A solar panel warranty is a guarantee from the manufacturer that their panels will perform as expected for a certain period. Most solar panel warranties last at least 10 years and typically cover panel replacement costs, excluding labor and shipping.

What is a performance warranty on a solar panel?

Performance warranties guarantee a percentage of electric power output over the warranty period. Most solar manufacturers offer 25-year performance warranties. The amount of power your solar panel can output declines steadily over that period.

How do I review a solar panel warranty?

When reviewing solar panel warranties, carefully examine the details for potential exclusions or limitations, such as weather damage, vandalism, or improper installation. Confirm the transferability of solar warranties to a new homeowner, enhancing the property value.

Should I pay for an extended solar panel warranty?

However, we generally don't recommend paying for an extended panel warranty. In most cases, included warranty coverages are plenty long to protect your equipment through the panel payback period and beyond, which means your solar panel system will be profitable by the time they expire.

Should you buy a warranty for a solar energy system?

When you invest in a solar energy system, one of the most crucial things to consider is the warranty offer. Manufacturer warranties provide a layer of financial protection for you in the event of faulty solar equipment, performance issues, and more.
