

What is the EGO POWER+ 100W Solar Panel?

The EGO POWER+100W Solar Panel is a compact, lightweight solar panel that converts solar energy into clean, renewable power. It sets up easily with two kickstands and folds for easy travel and storage. The panels feature monocrystalline cell construction for high-efficiency solar energy conversion.

What is the EGO Nexus Power Station used for?

Introducing the EGO Nexus Power Station; Quiet Clean Power for Indoor and Outdoor Use. Turn solar energy into clean, renewable power with the EGO POWER+100W Solar Panel.

How do I charge my EGO Nexus solar panel?

To charge your EGO Nexus solar panel, connect it to the EGO Nexus Power Station using the included MC4 connector. Then, connect the EGO Nexus Power Station to the CH1800 POWER+Nexus Solar Panel Charger (available separately).

How does the EGO solar panel charger work?

The EGO Solar Panel charger works by connecting to the solar panels using the provided MC4 connector cable. It can accept up to 180W of power, so a 100W solar panel will usually produce around 75W max, allowing for quicker charging if you connect two solar panels using Y Branch Connectors.

What is the maximum input allowed for the EGO Solar Panel charger?

The EGO Solar Panel charger has a 180W max input. A 100W solar panel will usually produce around 75W max, well under the 180W max input allowed for the charger.

How many kickstands does the solar panel have?

The EGO POWER+100W Solar Panel sets up easily with two kickstands and folds for easy travel and storage. Turn solar energy into clean, renewable power with this compact, lightweight solar panel. The panels feature monocrystalline cell construction for high-efficiency solar energy conversion.
