

Are solar power banks good for hiking?

Solar power banks, like the ones mentioned in the article, are great for hiking as they provide a lightweight and portable option to keep your devices charged. While the solar panel is not meant to be the sole source of power, it is large enough to keep you going and adds minimal weight to your camping pack.

What are the best power banks for backpacking?

If you're looking for something small and portable for backpacking, the best power banks for backpacking are your best bet. For home emergencies, consider the BioLite SolarPanel 5+.
