

What are solar phone chargers good for?

Solar phone chargers are a great way to stay powered up on the go. They are portable, lightweight, and can be used to charge your phone or tablet. Whether you're an outdoor enthusiast or simply looking for an eco-friendly way to charge your devices, read our list of the best solar phone chargers and power banks.

What is the best solar power bank portable charger?

The BLAVOR Qi Solar Power Bank Portable Charger is considered the best budget option. It is compatible with various devices such as iPhones, Samsung phones, Android devices, Windows devices, GoPro cameras, GPS devices, tablets, and most USB charging devices.

Should you use a portable solar panel Charger?

Portable solar panel chargers are meant to function as a source of backup power, not as the primary way to charge your phone every day due to their slow charging speed. The quality and efficiency of solar-powered phone chargers are improving over time.

Which solar charger is the best?

Our pick for the Best Overall solar charger is the BigBlue 28W USB Solar Charger. It features four foldable SunPower solar panels that fit into a compact bag, making it easy to store in your backpack. It also has two charging USB output ports, allowing it to charge up to three devices simultaneously.

What can solar chargers power?

Solar chargers can power your phone, headlamp, and other small tech. These portable gadgets marry solar panels with battery packs--they're small and lightweight enough to not add much heft to your pack and powerful enough to juice up your devices.

How many devices can a solar phone charger charge?

With four large, high-performance solar panels and 15 watts of energy output, this charger can power up to three devices pretty efficiently. According to the company, it can charge a supported device to 50% in 30 minutes. This solar phone charger is heavier than others on this list, so it may not be best for those who already have a heavy pack.
