What are the best Solar Lease companies in Riverside?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Riverside.

Should you get a solar loan in Riverside?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Riverside, rather than a leasing company retaining them.

How much does a 6 kW solar system cost in Riverside?

A 6 kW solar system will cost about \$16,080 in Riverside before incentives. After the 30% federal solar tax credit, this drops to \$11,256, or about \$1.88 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it.

Do I need a solar battery in Riverside?

No, you don't need to install a solar battery in Riverside. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.
