Are solar phone chargers a good idea?

Solar phone chargers are a great way to stay powered up on the go. They are portable, lightweight, and can be used to charge your phone or tablet. Whether you're an outdoor enthusiast or simply looking for an eco-friendly way to charge your devices, read our list of the best solar phone chargers and power banks.

What are the main types of solar phone chargers?

There are two main types of solar phone chargers: Direct solar chargers and battery bank solar chargers. Direct solar chargers connect the solar panels directly to your phone, while battery bank solar chargers do not.

What is a good wattage for a solar phone charger?

A wattage between 10 watts and 15 watts is a good rule of thumb when looking for a solar phone charger. The size of your charger is important, as you'll generally be using it on the go.

What devices can you charge with this solar charger?

This solar charger is a direct charger, so you will only be able to charge your phone (or other devices) while the panels are actively absorbing the sun. This charger comes with a USB-to-USB-C cable that can easily be switched out for any USB-to-whatever cable, though Apple products can be sticky.

Should you use a portable solar panel Charger?

Portable solar panel chargers are meant to function as a source of backup power, not as the primary way to charge your phone every day due to their slow charging speed. The quality and efficiency of solar-powered phone chargers are improving over time.
